TENDERS TO BE CALLED; BARRACKS

We notice with great satisfaction in the report of the publicity commissioner of the province this week that the government has definitely decided to erect police barracks here this summer. The report states that tenders will be called for in a week or ten days and the provincial architect is now at work on the plans.

It is locally rumored that the barracks will be erected on the site which was viewed by officials some time ago. It is on Victoria Street, immediately east of Mr. Putnam's residence, they will have made a wise selection, for there is no place in the town more suitable for such a building.

It is also gratifying to know that the town council made a free grant of any site the government may select, at at meeting a few weeks ago.

Death of Mrs. J. Bort

The death occurred on Saturday last of Mary, beloved wife of James Bort, of Beaver Creek, at that place. Death was very sudden as the day before Mrs. Bort had apparently been in excellent health and was only taken sick on the morning of her death.

Coroner F. M. Pinkney impelled a jury, consisting of J. Montalbetti, J. R. Gresham, Dan McKay, F. Sherring, A. Blais and J. Naylor and an inquest was held at Frank on Tuesday evening. Nothing much could be done, however, until the analyst's report on the contents of the stomach is received from Edmonton. The inquest was therefore adjourned until next Wednesday evening at 7.30. It will be held at the police barracks of the Sanatorium.

CAR TURNS TURTLE; BLOW-OUT CAUSE

What might easily have been a fatal accident occurred at the Victoria Street bridge on last Saturday afternoon, when a Ford car driven by A. Cervo had a blow out and turned turtle. James Lee was also in the car and both escaped with only a severe shaking up and a few bruises. It appears that Cervo had bought the car the evening before and had been driving it around that morning without mishap, although he had been noticed travelling at rather an excessive rate of speed, and was warned by a citizen to slow down or he would meet with an accident. Shortly after dinner, he and Lee were coming up town and at the bridge, the right front tire blew out, slowing the car around so fast that it turned over. One of the boys was thrown clear of the car, but the other was pinned beneath it. Mr. Pondellek and other men who were in his store at the time rushed out and righted the car, but the occupants immediately disappeared from the scene. The windshield was shattered and the fenders badly bent, but other than that, he car was not much the worse for the mishap.

I.O.O.F HAVING BUSY WEEK

The local Rebekahs and Oddfellows will hold their annual picnic this year at Lee Lake, on Wednesday next, the 19th, and they are arranging an extensive program for the event. Cars will leave from the front of the hall at 1.30 p.m., and should arrive at the Lake around three or half past. The sports will include races, for young and old, baseball, swimming for those who so desire and not forgetting the lunch, which the ladies know so well how to provide for such occasions. Last year the picnic was held at Crows' Nest Lake and was a very enjoyable affair. A committee from both branches of the Order are looking after the arrangements and we would like to vouch that it will be a red letter day for the Blairmore I. O. O. F.

The Blairmore and Bellevue I. O. O. F. lodges held a joint installation of officers last Tuesday evening, and a large number of the brothers from all through The Pass were in attendance. After the regular routine of business, the District Deputy Grand Master, Br. J. Houghton, of Coleman, and his suite, took charge and installed the following officers:

| | | |
|-----------------|----------|-------------|
| Blairmore. | Office | Bellevue |
| J. Patterson | J.P.G. | F. Padgett |
| W. T. Patterson | N.G. | H. Jenson |
| W. Oliver | V.G. | H. Harrison |
| D. A. Howe | R.S. | J. Shevels |
| M. B. Hoffman | War. | E. Fisher |
| A. Morency | Con. | T. Elder |
| John Davis | R.S.N.G. | |
| T. Dawson | R.S.V.G. | |
| J. Crowder | Chaplain | |
| Wm. Patterson | I. G. | |

After installation, the Rebekahs served a delightful lunch and Bro. J. Houghton, D.D.G.M., was called on for a few remarks, after which E. Royle took possession of the piano and supplied excellent music for the short dance that followed. Bro. A. Morency acted in the capacity of chairman.

Both the Rebekahs and Oddfellows of Coleman and Bellevue turned out strong and they helped greatly in making the evening a success.

Crow View Rebekah Lodge, I.O.O. F., held their installation of officers last Thursday night and a large number of members turned out to witness the ceremonies. District Deputy Grand President, Mrs. Wm. Turner, was in charge and everything was carried out to the satisfaction of

OPPORTUNITY

They offered him a partnership in the new business if he could invest a few thousand dollars. But he had never saved money and he lost his chance.

venture has proved successful. I try to look at it such a result in quite what I expected. I am not going to admit that I am not across on luck. For amusement, Gage and I went the union bed, but for with steamers, and had, but not most amusing, go to the farmhouse to look for eggs. Gage has a genuine Red-Bellied Woodpecker which she has used in cases: eggs in ever since she was big enough to hold it. I use the pocket of a big gingham apron. I had a thrilling experience the very first day. I had found six eggs, and as I went to take the seventh out of a nest a miserable old sufragette flew off the perch, and screaming "Help! Help!" Police... landed almost on top of me. Of course I jumped, and dropped the egg, which made themselves into an enormous omelet. And Gage, all this time, was leaning against the door, and laughing until the tears rolled down her cheeks. She has such a jolly, gurgling laugh, the sort you hear from a well-fed baby.

Then we visit the horses regularly, and the calves, and the pigs. Mr. Fiske has eight teams of farm horses and a carriage team. The latter are hatched, "Ing" and "Fisk." Mr. Fiske bought them from my late coachman, Mr. Livingston, and they are branded with the mark "R," which is read "Bar R."

The magazine is completed by two dogs, a thoroughbred collie "Mac" and a mongrel bull-terrier "Tom" and

HALIFAX EXPLOSION WRECKED NER NERVES

The reader will, no doubt, remember when a few years ago there was a collision in the Halifax, N.S. harbor and one of the munition ships was blown up, causing great loss of life and leaving a large portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

Mrs. Winfield Hill, now of Windsor, N.S., was living in Halifax at that time and went through this trying experience and the shock wrecked her nerves. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do my housework. I would take such nervous spells I would be under the doctor's care."

I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so much I had the nerve, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble."

To all those who suffer from nervous shock we would recommend our

Mr. Wombat Travels From Australia to the End-of-the-Earth.

Do you know what a Wombat is? It was a long way for Mr. Wombat to travel from Australia to the End-of-the-Earth, but as he wanted to see Stella, the Wishing Fairy, he didn't care how long the trip was or how tired he grew.

By the time he reached the Great Little Pool he was so thirsty that he drank and drank, and before he realized it he had drunk the whole pool dry, which made the four Brownies awfully angry.

They were jumping excitedly around the edge of the pool, begging him to stop drinking, but Mr. Wombat was enjoying himself so much that he never even noticed them.

The Brownies were furious. They had to get their seashell-buckets (that Pearl the Fairy at the End-of-the-Sea, and Stella's cousin, had once sent her for a birthday present) and fetch enough water to refill the empty pool.

The Wombat became very little after having lapped up the whole Great Little Pool, and he was still licking his lips when Stella happened to walk toward him.

"Are you the Wishing Fairy?" he called to her.

"Yes," she said, "did you come to see me?"

"Yes, indeed," Mr. Wombat happily exclaimed as he edged yet closer to her.

"Have you a wish?" she asked.

"Well," was the slow answer, "to be quite truthful, I didn't when I first arrived. I only came to see you because I had heard so much about you and your Brownies that I wanted to know you; but since I've been here I find that I have two wishes and I want them both to come true—I want them ever so much."

"And what are they?" the Little Fairy gently asked.

"One is that after my visit I may suddenly find myself home—I mean

RAILROAD MAN SAYS SYSTEM IS IN FINE SHAPE

He Now Eats Better, Sleeps Better, Works Better, and Feels Better Since Tanlac Ended His Stomach Trouble, Declares A. J. Shorter.

"Tanlac put me in such good shape a year ago I have been feeling fine ever since," said A. J. Shorter, 355 Victor St., Winnipeg, Man., a well-known machinist for the Canadian National Railway.

"About three years ago I had a nervous breakdown that kept me in bed flat on my back for six weeks and it left me in such bad shape that I wasn't the same man at all. I was so nervous and restless I could scarcely sleep a wink. My appetite was poor, my food gave me little nourishment and I was in a badly run down condition."

RED HOT JULY DAYS

HARD ON THE BABY

July—the month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

The Reason

Teacher.—"What beautiful clean hands you have, Tommy." Just tell the class how you got them so clean. Tommy (sulkily).—"My mother made me wash the breakfast dishes this morning."

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings me use to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

A Harmless Criticism

On Tending Diligently to One's Own Business

An English visitor has been telling a Winnipeg audience that Canadianism was narrow-minded. "What he apparently means by it is that they concentrate their attention on the things of personal, practical and immediate importance to themselves. It is not a bad fault. There are some reasons to think that England might be happier and more prosperous if its Government spent less time and energy trying to reconstruct Russia and gave some serious thought to the re-establishment of British industry and trade. Tending diligently to one's own business may be "narrow," but it makes for success, independence and contentment.—Edmonton Bulletin.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

German Labor in Reconstruction

The French Cabinet has decided to place before the Reparations Commission the reparations project recently presented to Premier Poincaré by M. Le Troquer, Minister of Public Works, providing for the extensive use of German labor and material throughout France for the rebuilding of railways, waterways and other public works at a cost of 18,000,000,000 francs.

Circle Tours Through the Canadian Pacific Rockies

Delightful Trip Afforded for Tourists Over C.P.R.

By the most magnificent mountain and inland water trip in the world, passing through beautiful Banff, lovely Lake Louise, Field and Glacier House to Arrowhead—steamer through the Arrow and Kootenay Lakes, winding in and out past majestic mountain peaks—touching at West Robson and Nelson enroute. This delightful trip can be made in the opposite direction if desired and at remarkably low cost.

Any Canadian Pacific ticket agent will gladly give full information and arrange details.

New Jersey is to pay its prisoners for their work while in jail to give them a fair start when their terms are completed. The experiment is receiving wide publicity in America.

Stage people regard it as unlucky to leave soap behind in their dressing room wheel on tour.

B.C. Lumber for Holland

Order Received in Direct Competition With Baltic Timbers

An order for a large quantity of lumber to be shipped to Holland has been received by the Canadian Producers' Corporation. The shipment is of rough Douglas fir and will be finished in the Holland mills. This lumber was sold in direct competition with Baltic timbers and was chiefly chosen because of the lack of resin in the lumber.

West Growing More Flax

Acreage Nearly Three Times that of Other Years

The acreage devoted to flax in the western provinces this year is estimated to be nearly three times that of other years with excellent prospects for a heavy yield. Government figures this spring indicated a world shortage of available flax seed to the extent of 22,000,000 bushels, and together with the prices prevailing farmers are expecting a handsome revenue.

Minard's Liniment Relieves Neuralgia

To Film Alberta Scenes

Farming Activities to be Illustrated on Movie Screen

Farming activities in Alberta are about to be illustrated on the movie screen. The province is to be pictured and filmed from a variety of viewpoints, for the information of its own people and the attraction of people's interest in other countries. The agricultural and publicity departments of the Provincial Government are doing the production work, which is now getting under way.

All phases of farm and industrial life in Alberta will be put into pictorial form, according to the Government's plans, the idea being that moving pictures of actual conditions, scenes and working methods in this province will be prepared for exhibition at home and abroad.

Ten or a dozen reels will be produced this year, and will be added to a number that the department already has in stock. When completed these will be used in the Government's educational work in Alberta, and some of them will later be sent over to England in connection with the immigration campaign.

To Meet at Calgary

Alberta City Decided Upon for Annual Convention of Dunkards

The members of the religious sect known as the Dunkards, running into many thousands on the American continent, will hold their next annual convention in Calgary. The Alberta city was decided upon after the rival claims of California, Colorado and Missouri had been considered at the Indiana convention. The Calgary gathering may bring as many as ten thousand people of the persuasion for a week or more.

Many mothers have reason to bless Mother Graves' Worm-Exterminator, because it has relieved the little ones of suffering and made them healthy.

Some people's excuse for making bad breaks is that it is never too late to mend.

COLEMAN UNION DEMAND VOTE

A special meeting of the Local Union 2673 was held in the opera house on Monday afternoon, the 10th. The object was to consider the Knowles-Ostlund award or majority report of the Knowles' conciliation board on the strike.

There was a large attendance of miners. Mr. John Hestfield acted as chairman.

Mr. James Fairhurst, secretary of the union, intimidated the business of the meeting. There was voiced great deal of dissatisfaction with the leaders in regard to their attitude in the whole matter. After much discussion and many divergent views had been expressed the following was the unanimous finding of the meeting:

Whereas, there seems to be a great unrest among the members of District 18 because of the results of the combined action of the wage scale committee and district board in turning down the majority award,

And Whereas we believe that such action is not in accord with the wishes of the membership in District 18 and is a direct contravention of the pledge and promise made in a circular of March 27 which states that the findings of the board under the Industrial Disputes Investigation Act would be submitted to a referendum vote;

And whereas we believe for the preservation of harmony and unity among the members of our organization that the only satisfactory way of deciding whether said award should be accepted or rejected is to submit the matter to the rank and file for final decision;

Therefore be it resolved that we demand the question of the Knowles and Ostlund majority award be submitted to a referendum vote of the membership of District 18.

This resolution will be sent to the secretary of District 18 and to Ottawa.

So far the local unions have received for relief the sum of \$1250. This has been augmented from local funds and needy cases have received special attention.—Lethbridge Herald.

RELIEVES MINERS WERE READY TO ACCEPT OFFER

If the miners of District 18 were permitted to vote on the wage scale offered them by the operators following announcements of the reports the Knowles' conciliation board, they would have accepted it, said Jesse Gouge, mine operator at Drumheller, who was at the Phillips Hotel last night.

District officers of the United Mine Workers of America, District 18, have been withholding the opportunity of voting on the question from the men, he said.

"I have reason to believe if the men had been permitted by their district officers to vote on the proposition offered by the operators they would accept it. The proposition was that the men go back to work temporarily on a wage scale on a basis of the Drinnan minority report," he said.

"This scale would be paid until the announcement of the wage scale in the United States, either by agreement or arbitration, which would then be adopted in mines in District 18. But the officers of District 18 have not put the matter before the miners to vote on, so the miners are idle today," he said.

Original Offer Stands

Regarding the suggestion from the

FOOTBALL

Football is again on the boom here and the league have lined up a fairly strong team. The Mutt Cup series will commence on Wednesday, the 26th, when the Coal Creek team plays here. Teams participating in the series are Fern's, Michel, Coal Creek, Bellevue, Hillcrest and Blairmore.

A subscription list was passed around during the week and met with pretty fair support. The club had to purchase a whole new outfit this year, and the 1st totals \$190, which will not last long when it comes to buying for sweaters, etc. Besides to all of the list, the Hockey Club donated \$30 for use of sweaters last winter, which brings the total to over the two hundred mark, and does not include those who did not get the chance to subscribe or those who refused to subscribe. We publish it below:

Sandy—So ye din't go away for the New Year, Mac?

Mac—No, Sandy. The Macgregors wrote and I'd like to have gone, but they forgot the enclosed a stamped envelope for reply.

minister of labor at Ottawa for a conference between the miners and operators of District 18, he said that the operators were merely standing pat until the decision of the conference at Washington, which might be handed down in two weeks or two months he said. Until that time the operators are still making their original offer made following the Drinnan minority report.

"In the meantime the men could be working and making some money, even if it was not what they wanted, until the U.S. rate is announced," he said. "It is a certainty that the operators cannot operate at their old wage rates, for they cannot sell coal at a profit at the rates which are being demanded by the public before the public buys the coal."

"The coal cannot be sold at its old rate, while to sell coal at the rates demanded today and pay the former scale of wages would mean a loss to the operator, so the operators are not operating their mines," he said.

—Morning Albertan.

What Chiropractic is Doing

Chiropractic has been known to effect permanent results after but one adjustment. On the other hand it may take several, or many adjustments to bring the body back to normal health.

Chiropractic is proving daily that the theory of germs being the cause of disease has absolutely no foundation in fact.

"Do Chiropractic's adjustments really restore health?" Fifteen thousand successful chiropractors scattered all over the world, is our answer. Twenty-seven years ago Chiropractic was unknown; today it is the successful corrector of any health system in existence. If the Chiropractor had failed to bring health to millions of sufferers where other systems had failed, could the science have progressed to the position it holds today?

Holiday time is the time to have children's tonsils, adenoids and other ailments attended to. Try what Chiropractic will do for them.

BLAIRMORE ALBERTA

The Hydrographic Office of the U. S. Navy Department frequently receives several "bottle papers" picked up at sea by vessels. These bottle manuscripts contain interesting and valuable data to the marine map workers sent out by the Navy Department. These bottle papers are

dropped in all seas to determine the flow of the sea currents. They are printed in nine languages and contain the name of the "dropper," the ship, the date and the ship's position. The finder signs his name and forwards the paper to the Hydrographic Office.

PROVINCIAL NEWS

BARRACKS FOR BLAIRMORE

Another barracks building for the provincial police has been decided upon and will be built during the summer. It is to be for the Blairmore detachment, and negotiations are now under way for a suitable site. Tenders are being called for, it is expected, in about ten days, the provincial architect being now at work on the plans.

Deputy Commissioners under the Southern Alberta Relief Act, to act with Commissioner E. J. Cream in the five districts into which the drought area has been divided, have been appointed and now assisting in the administration of the act. The appointments are as follows: For No. 1 district, comprising all that part of the drought area lying within the boundaries of the judicial sub-district of Taber, Thomas Martin; district No. 2, in the judicial district of Medicine Hat, S. A. Wallace; district No. 3, in the judicial district of Lethbridge, S. S. Dunham; district No. 4, in the judicial district of Maceled, Judge A. M. McDonald; district No. 5, in the judicial district of Stettler, Judge R. J. S. Stewart. The five deputy commissioners as provided in the proclamation creating the relief service, are to assist and to act instead of the commissioner in such matters as may be delegated to them by the commissioner.

To Standardize Coal

A decision to adopt some system of standardization of Alberta coal, in order to facilitate marketing, was reached at a conference of coal operators of the province with Premier Greenfield and officials of the government, which was held at the Government buildings last Tuesday. The conference was called by Premier Greenfield to discuss standardization and marketing. The Premier told the operators he was prepared to do anything he could to improve the marketing conditions of Alberta coal, but

there were several problems to be solved, and standardization was out of the question. A committee of 12 will be appointed to deal with the question of standardization, which will include three men each from Edmonton, Drumheller and Lethbridge fields, and three from the other fields of the province. It is expected that the committee report will be ready in about two weeks' time. Other problems of marketing will be discussed. For some time the government has had a campaign in progress in Manitoba to increase the marketing of "Alberta coal" there, and has met with some success.

Geo. Pratt, government fuel engineer in charge of the demonstration at Winnipeg, gave the conference Tuesday one of his illustrated lectures demonstrating the proper methods of firing Alberta coal. Premier Greenfield pointed out that Alberta must develop along two chief lines, namely, agriculture and the coal industry and attention must be given to the marketing problems.

Freight Rates

In addition to the reductions in the freight rates on grain decided upon by the House of Commons, the railway commission has issued an order for a decrease of 7 1/2 per cent. on basic commodities, to come into effect August 1, according to advices from Ottawa. This decrease will apply to forest products, building material, brick, cement, lime, plaster, potatoes, ores, pig iron, scrap iron. This order also applies to coal rates in Alberta, amounting to about 20 cents a ton, on coal shipments from Alberta fields.

Tenders are now being called for by the public works department for the erection of two new buildings for the hospital for insane at Ponoka. One of these will be a dormitory, with accommodation for 200 patients, and the other a dining hall to seat 200 persons, the two to cost in the neighborhood, it is estimated of \$250,000. Both will be of brick and tile construction and practically fireproof. It is the intention of the department to put the work through as rapidly as possible, in order to have both buildings covered in by the beginning of next winter.

New Hospital Districts

A new municipal hospital district has been created to include municipal districts 278, 279, 308, 309 and the village of Three Hills. A vote will be taken shortly on the question of adding to the Drumheller hospital district, a portion of municipal district 278, and the village of Carbon. The organization work for the new municipal hospital district at Athabasca has been completed, and arrangements are to be made for the transfer of the present hospital building and equipment, which is to be presented to the new hospital district as a gift from the Victorian order of nurses.

Walter Smitten, the new provincial labor commissioner, has taken up his new duties and has been provided offices in the Terrace Building near the main Government buildings. Mr. Smitten's first duty will be to make investigations relative to the co-ordination of all labor legislation of the province.

In charges laid under the Liquor Act and Inland Revenue Act recently at Waterhole and McLennan, against two men, sentences of six months and three months on separate counts were imposed on each of the two men found guilty of moonshine operation and bootlegging. The men were given the option of paying heavy fines, but decided to serve the gaol sentences imposed.

Sherlock and the faithful Watson were strolling down Piccadilly.

"There's a woman in very short skirts just behind us, my dear doctor," murmured the great detective.

"Marvelous!" enthused Watson, after he had corroborated the statement by a glance behind. "How in the world did you ever know without turning your head?"

"Purely elementary, dear old fellow. I merely observed the faces of the people who are walking toward us."

Auction Sale of Timber in the Crownest Forest Reserve

THE RIGHT TO CUT TIMBER on a tract of land to be known as Timber Sale No. 111 will be offered at public auction at a rate per thousand feet board measure at the Coleman Ranger Station, Coleman, Alberta.

The sale will be held at 2 o'clock p.m. on Monday the 31st day of July, 1922.

The timber to be cut is located on the northwest quarter of section 24, township 8, range 5, west of the 6th meridian and on section 25, township 8, range 5, west of the 6th meridian, all lying outside of Timber Berth No. 26A, Block 5.

There is estimated to be approximately 2,000,000 feet board measure of merchantable saw timber to be designated for removal from the sale area consisting of 1,200,000 feet of green spruce and pine and 800,000 of material, fire-killed in September, 1921. The upset price of this material is \$1.50 per thousand feet board measure for both classes of timber, and the purchaser will be allowed until May 1st, 1924, to remove the timber.

Only such timber, within the area described, as may be marked or otherwise designated for removal may be cut, and all timber designated, whether standing or fallen, must be cut and removed from the sale area. The brush and other debris resulting from the operation must be lopped, piled and burned in accordance with the instructions and to the satisfaction of the Forest Officer.

Each bidder will be required to deposit with the officer conducting the sale the sum of \$500 in cash, or bank draft or accepted cheque made payable to the Deputy Minister of the Interior, before being allowed to bid at the sale. The sale will be awarded on the basis of the amount offered per thousand feet board measure for the saw timber on the sale area. The department does not bind itself to accept the highest or any bid. The deposits of the unsuccessful bidders will be returned to them at the close of the sale, while that of the successful bidder will be retained as a guarantee deposit to be forfeited, in case of failure to comply with the conditions of the sale or the Forest Reserve Regulations.

Full particulars and detailed regulations governing the sale may be obtained from the forest Supervisor, Pincher Creek, Alberta, or from the District Forest Inspector, Calgary, Alberta.

W. W. CORY, C.M.G.,
Deputy Minister of the Interior,
Department of the Interior,
Ottawa, June 21st, 1922.

Cowley Happenings

G. W. Buchanan was among the visitors to the Calgary fair.

L. M. Calvin and family of Calgary, are visiting at the Sheppard ranch.

Joe Wilson has returned from Armstrong, B. C., after spending several months there.

Mr. and Mrs. Jack Sheffield, of Bowden, are visiting in this district at present.

Mrs. Geo. Ritson has returned from Medicine Hat where she spent several weeks with her father previous to his death, which occurred recently.

The Doukhobog Community sent several carloads of livestock to the Calgary fair, and we understand they captured several prizes.

NOTICE

Henry Franz begs to notify the merchants and other places of business in The Pass that his wife having left his bed and board, he will not be responsible for any debts incurred by her, and merchants giving her credit will do so at their own risk.

Remember

IMPERIAL POLARINE OIL
(Light Medium Body) is the
lubricant recommended for your Ford.

A Passenger
You can't afford to haul —

Briefly, these are some of the results of using too heavy an oil for your Ford.

- (1) Engine drag and loss of power.
- (2) Improper oil distribution.
- (3) An overheated engine.
- (4) Excess carbon deposit.
- (5) Unnecessary friction and wear.
- (6) Large repair bills.
- (7) Rapid depreciation.
- (8) Excess fuel and oil consumption.

What is the remedy? Use Imperial Polarine Motor Oil (Light Medium Body), which is especially adapted to the mechanical requirements and operating conditions of your Ford engine.

Have your crank case cleaned and refilled today with Imperial Polarine Oil (Light Medium Body), and realize full Ford economy and efficiency.

Don't Push

Reports from all parts of Western Canada are at the time this article is written, distinctly optimistic so far as crop conditions are concerned. The heavy spring rains, while they retarded seeding operations in some districts, and resulted in certain low-lying land not being seeded, nevertheless prepared an ideal seed bed. Then, during the latter part of June copious rains have fallen fairly generally throughout the West, giving the growing grain sturdy development and providing necessary moisture for rapid growth.

Sections of the country which during recent years have been afflicted with the grasshopper plague report a marked decrease in the pest, while never before have farmers generally been so well organized and ready to fight this danger.

Reductions in freight rates, and the passing of legislation calculated to assist in the marketing of the crop without such a disastrous decrease in prices as took place last year, are also encouraging features of the situation, leading to the hope that, providing the crop passes through the dangers still ahead, a reasonably profitable return on the season's operations will be realized.

It is never wise, however, to figure on a crop until it is actually harvested and marketed because so many variables may occur, and so many factors have to be considered. Chickens should be counted before they are hatched, and neither should the probabilities of the Western grain crop be figured on until they become actualities.

Evidence is not lacking even at this early date that some creditors and corporations, to whom farmers are largely in debt, are figuring on and preparing for what they term a "clean up" this year. In other words, they are planning to conduct aggressive debt-collecting campaigns. In some few isolated cases steps have already been taken to effect foreclosure of mortgages on the strength of growing crops, and without giving the individual farmer an opportunity to himself realize on his year's labor and thus place himself in a position to meet his liabilities to the extent that the crop may place him in funds to do so.

The fact ought to be, and must be, realized that in those sections which have suffered from repeated crop failures in recent years one crop will not liquidate the debts which have been contracted. If "taken next year's" losses, to put many farmers in the position in which they now unfortunately find themselves, and it would be both foolish and cruel if drastic measures of debt collection were taken. Yet when there is no several creditors it is inevitable that, if one proceeds to take drastic action, the others who are willing to be reasonable must adopt somewhat similar measures in order to protect themselves and not allow the unreasonable creditor to get away with everything to their own and their client's loss.

In a few isolated cases it has already been necessary for Governments to warn unreasonable creditors that, if they persist in demanding their pound of flesh without giving the debtor-farmer a fair chance, an individual moratorium will be issued to protect such a man and his other creditors. Should his Shylock characteristic become a all general, Governments might be forced, much as they would regret the necessity, to declare a moratorium in order to prevent the precipitation of a situation which would prove disastrous all round.

On the other hand it must be fully recognized that there is an unwieldy burden of debt now resting on the country which must be paid off to the last dollar; it is possible to suggest out of this year's production and yet leave sufficient to enable families to enjoy the necessities of life and continue to "carry on" next year. The whole credit system of the country, and the stability of the entire financial and business fabric, depend on this being done. There can be no sympathy for, and little mercy shown to, the man who does not deal frankly and honestly with his creditors, and make every possible effort to pay off his liabilities.

There is, therefore, imperative necessity for mutual understanding, goodwill and active co-operation between debtors and creditors this year. There must be no tendency on the part of the debtor to evade or gratify himself, but an open, honest effort to meet his creditors more than half-way and fairly to the full extent of his ability. Creditors, on the other hand, must appreciate the fact that one year's crop may pay for three, four and sometimes five years of crops. They must, therefore, be reasonable, and those who refuse to be reasonable must be taken in hand and compelled to be so.

The national interest demands not merely an appreciation of these things, but a practical recognition of them. National interests are paramount, and above any individual or corporate interest, and if the latter do not to their volition count themselves as the national interest demands, well, then they must be made to do so.

Old-Time Postal Service

An Extra Charge for Late Mail Was Made in England.

A hundred years ago, in England, anyone who mailed a letter late in the day was subject to a fine. Unless letters were mailed in London before 4 o'clock a fee of a penny for each one had to be paid to the bell-man who collected the late mail. The postman was an important personage in those days. He was all done up in red, white and blue, scarlet coat, blue breeches, white stockings, with a great cockade in his hat. Those who chose to carry letters to the general post office could do so, but if they wished to have letters received after a certain time no less than sixpence must be paid. It was usual for postage to be collected from the person who received a letter.

More than 7,000 pounds of pure gold, says an authority, are required each year to supply the wedding rings for our brides.

Every dollar spent in your home town is a boost for the community.

English Motor Cars May Establish a Plant in Canada.
A cable from London announces that an English motor car concern is to make the experiment of establishing a branch in Canada to enable its product to compete with the American cars now made and sold here. An assembling plant will first be built in the Dominion and if this is successful complete manufacturing will be undertaken. This pioneer in the movement to construct English cars in Canada will be able to sell its product for less than \$1,000.

Pains in Back, Limbs and Side Yield to "Nervine."

If you have failed to secure relief from other remedies, rub on lots of good old "Nervine," the strongest, most penetrating pain relief on the market. "Nervine" acts on the small pains and is the surest to drive out the big ones. It's because every drop in "Nervine" has the power to make the body sink in deeply, that it drives away pain that ordinary oil, liniment, won't touch. Large 50c bottles at all dealers.

Asking Too Much.
Doctor: "Your trouble is dyspepsia. You should laugh heartily before and after meals."
Patient: "But that's impossible, doctor. I cack them myself and wash up the dishes afterwards."

OVERWORKED NERVES

The Most Successful Treatment is Through the Blood.
The early stages of nervous debility are noted by restlessness and irritability in which the victims seem to be oppressed by their nerves. As the trouble advances, common symptoms are a tired feeling; weakness in the knees and ankles; headaches, backaches and sleeplessness. The matter requires immediate attention, for nothing but suitable treatment will prevent a complete breakdown.

The nervous system governs the whole body, controlling heart, lungs, digestion and brain so that it is not surprising that nervous disturbances cause acute distress. For trouble of this kind Dr. Williams' Pink Pills should be taken when other treatment fails, for these pills make new blood, enrich with the elements on which the nerves thrive, and in this way reach the root of the trouble. In proof of this kind Dr. Williams' Pink Pills Dr. Kerill, Stratford, Ont., says: "My daughter, Matilda, was suffering from nervous debility, and the usual remedies did not seem to help her. I was advised by a friend to give Dr. Williams' Pink Pills a trial, and soon we found they were doing her a great deal of good. She complained of pain in the stomach, and a severe fluttering of the heart, with a general weakness. Under the use of these pills she continued to gain, and she believes they have saved her from going into a decline."

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

About Advertising

To Be Effective It Must Be Persistent.

The Montreal Star makes an interesting and pointed business remark when it declares that "January's advertising helps June and June's will help December."

There is a world of truth, reason and significance in this pithy utterance and a little reflection will prove why this is so. Effective advertising must not be spasmodic but must be persistent. To hope for instant and sustained results from one or two advertisements is to expect the impossible as is as though one hoped by attending school a day or two every six months to become an educated man. The one is as absurd as the other.

The wide advertiser is he who advertises regularly week in and week out and regards his initial advertising as the bulwark against future diffusion—a basis for the permanent superstructure that is to rise later—Kingston Standard.

Was Prepared.
Mlle. Marie Don, aged 85, was buried at Bagneres de Vior, France, in a coffin which she had had specially made for herself almost half a century ago.

The coffin, while waiting for its mistress to occupy it, was used by her as a wardrobe and as a dinner table.

Mlle. Don always took her meals on it and scorned a tablecloth.

It is believed that ultra-violet light rays are largely responsible for the fading of museum specimens in show cases, and experiments are now being made with a view to obtaining glass which will be at the same time colorless and inexpensive.

The Achilles Statue, in Hyde Park, London, was cast from a cannon captured during the Duke of Wellington's victories, and is dedicated to him and his troops.

Animal Intelligence

Interesting Incidents Showing Reasoning Powers of Dogs.
In England, a short time ago, says an exchange, a medal was awarded a Great Dane for saving his master's life. A roaring, deafening wind was blowing, and the man was walking about a dark, dreary road with his head down.

The dog was some distance behind, but presently up he came at racing speed, took a jump at his master, and sent him sprawling into the hedge. The dog himself could not escape the boisterous of the car which, but for his intervention, would have killed his master, and was badly injured.

Quite recently an Irish terrier, of its own accord, paid repeated visits to a typhoid hospital for treatment, while in the boardroom of King's College Hospital, London, is a picture of two fox terriers escorting a wounded colic to that institution. The incident depicted is a true one. The owner of the dogs was a bookseller named Hunt, and his explanation of the dogs' sagacity was that they lived so near the hospital that they must have noticed people who had met with accidents being taken there. They used their "knowledge" when their friend, the colic, was run over by a cab.

Owners of bull terriers have countless stories to tell of their favorite breed. One of the best is of the animal which went to a dog show "on his own." He was a wonderful dog and had taken prizes everywhere, but eventually he grew old and his son reigned in his stead.

Evidently, however, he thought this was an oversight on the part of his master which it was his duty to rectify.

Consequently he jumped through a kitchen window, over several walls, made his way through miles of London's thickest traffic, and finally finished up at the Horticultural Hall, where he took his place on the stand.

The Mysterious Vitamines

Are Real Things, But No One Has Yet Set Eyes on Them.

Vitamines are essential to life and present in minute quantities in food. No one has ever set eyes on a vitamin, but vitamins are real things, and quite indispensable to our dietary. Food scientists tell us. But just what vitamins supply, no one seems to know for a certainty. Some scientists are of the opinion that they supply the body with certain necessary chemical units which the body is unable to manufacture. Others regard them as the light of all things, in that they exert a stimulating influence upon the various activities of the body. But all this is said to be intelligent guesswork, and nothing more. The word "vitamine" was coined by Casimir Funk, Ph.D. The first part of the word indicates its relation to the life process; the second to its chemical nature.

Manlaughter in 2nd Degree

Using a razor—bad stuff—but many people do it for their corams. The only remedy that is painless and sure is Putnam's Corn Extractor, which removes warts and corns, cleans them right off. Refuse a substitute for "Putnam's," 25c, everywhere.

Scotland Intends to Utilize Waterfalls

Scenic Streams Will, Soon Turn Wheels for Industries.

Scotland is waking up to the fact that its lakes and waterfalls may be made to serve other purposes than providing scenic attractions for tourists. As proof of this the "Glenkiln Electric Bill" has been given a second reading in the House of Commons.

The company is empowered to collect and use the waters of 15 lochs and 99 small lakes, rivers and streams, over an area of 417 square miles.

The water proposed to be utilized are estimated to be capable of generating 56,000 horsepower to supply electricity in the counties of Perth, Kinross and Forfar and districts in four other counties. The capital is placed at £24,500,000.

That any of the beautiful lakes and falls of "Caledonia, stern and wild," should be used to set the wheels of industry spinning, may in Scotland regard almost as sacrilegious desecration. And that opinion is shared by not a few Canadians who are accustomed to visit Scotland annually.

But the promoters declare that the preservation of the natural beauties of Scotland is expressly provided for by the terms of the bill. And they add that when the hum of the electrically-driven wheels of industry are heard in the land, and dividends begin to come to the cry of "destruction" will be silenced.

A Cruise on the Great Lakes

Enjoy to the Fullest Extent the Trip East.

The trip to Eastern Canada or the United States can be made doubly enjoyable by including the delightful cruise on the Great Lakes from Fort William and Port Arthur to Port McNicoll or Owen Sound on the Palatial Canadian Pacific Steamers "Keewatin," "Manitoba," and "Manitowish." Three sailings a week from Fort William and Port Arthur every Wednesday and Saturday to Port McNicoll, where direct connection is made with special trains for Toronto, and every Thursday for Owen Sound. The Great Lakes trip is a delightful diversion to the East—Restful, cool and refreshing.

The Ticket Agent of the Canadian Pacific will be pleased to give full information as to rates, sailings, etc., and arrange every detail for an enjoyable trip.

Provisional Government Is Dealing Successfully With Irish Insurrection

London.—Both Winston Spencer Churchill, Colonial Secretary, and Lord Chancellor Birkenhead, gave it as their opinion in parliament that the Irish insurrection has been completely crushed. "It is bold enough to believe," the Lord Chancellor said, "that the situation is more hopeful than it has been since the treaty was signed."

He rejoiced that the task of upholding the treaty—peaceful, costly and bloody as it must ultimately prove—was being undertaken by those upon whom it properly fell. The movement had been crushed in Dublin, but there remained the task of enforcing law and order in the country as a whole.

The Provisional Government, Lord Birkenhead declared, was aware of the formidable character of the task and now ruthless must be the weapons employed. It was an agency of hope for the future. The provisional government had appealed to all men of goodwill to assist in the task and he hoped the response would be wide and general.

Dublin.—There was a great response to the provisional government's call to arms, and at the Wellington, Portobello and Beggan's Bush Barracks, as well as at the City Hall, long lines stood waiting to join. The men are being segregated into their own areas.

Besides members of the volunteers offering themselves, there were large numbers of ordinary citizens for recruitment in the volunteer forces, as preliminary transfer to actual service list.

Great Future for B.C. Mines
Nelson.—That British Columbia's share of the mineral wealth of the Pacific Highland would in future generations be proved to be equal to that of the United States and Mexico, was the prediction of Hon. William Sloan, Minister of mines, in an address before the international mining convention. He said the tide had turned in mining and referred to the survey of the province's iron resources now in progress.

Mayo Mine May Rival Cobalt
Victoria, B.C.—Recent discoveries and developments at Mayo, in the Yukon, lead those familiar with silver mining to predict that the camp there, which has arisen as the successor to the Dawson field, will eventually rival Cobalt, according to a message received at the Parliament Buildings from Archie N. Martin, mining expert, who is now investigating the Mayo field.

Toronto Overpays Tax Installment
Toronto.—The first installment of Toronto's taxes has been overpaid. The first collection was to reach 74.4 per cent of the total amount, but Toronto ratepayers have gone beyond that point and paid 55.77 per cent of the total. The total amount is \$26,671, and on the first installment the city wanted \$12,567,997. It received \$14,758,626.

Collided With Iceberg
St. John's, Nfld.—The British steamer Norburn, from Quebec to Liverpool, with a cargo of lumber, put into this port with her bow smashed and leaking badly. The vessel struck an iceberg in the Strait of Belle Isle.

It pays to patronize home industry. Buy from the merchants in your own town.

Early Settlement Of Strike On U. S. Roads Is Now Looked For

Chicago.—Hope for the speedy settlement of the country-wide strike of the railway shippers was seen in statements issued by Sen. W. Hooper, chairman of the United States Railroad Labor Board, and B. M. Jewell, leader of the shop crafts, who ordered the walking out of the strike. In a reply to a letter from Mr. Hooper, which was regarded as conciliatory, Mr. Jewell declared that the strikers were willing to "consider any negotiations with any one in authority settlement of the strike."

"We are willing to enter with any body authorized by the railroads to bring peace proposals to us," said Mr. Jewell. "I include or exclude nobody, but if the Labor Board, for instance, came to us with a definite proposition we would not hesitate to consider it."

Most Northerly Post Office

Edmonton.—Speeding north by the first steamer to the Arctic Circle are the post office regulations, stamps and a new imprimatur bearing the word "Akavik," destined for the most northerly post office to be established in the Dominion of Canada. Akavik is a trading post on the delta at the mouth of the Mackenzie River, and will soon be the possessor of its post office, due to representations made by the traders as to the necessity for its establishment. Two ships will leave the new post office by steamer during the open season and one by dog team during the winter, the latter being the longest and most lonely postal route on the continent.

Dominion's Dairy Outlook

Canadian Dairy Commissioner Speaks On Trade With Britain.

London.—H. B. Thomson, formerly food controller for Canada, presided over a meeting, attended by British business men at the Royal Cecil Hotel. The meeting heard J. A. Riddick, Canadian dairy and cold storage commissioner, who dealt with the prospects of increased trade in dairy produce between Canada and England.

Regarding the much vexed question of grading, Mr. Riddick explained that the scheme suggested was not a Government proposal. His audience expressed anxiety lest the grading scheme prove to be the thin edge of the wedge of Government control, but both Mr. Thomson and Mr. Riddick told them that this would not be the case, the former recalling the fact that Canada had relinquished control of dairy produce within 60 days after the annexation had been signed, while England continued the control for over two years.

Prisoners Given Good Treatment

O'Connor and His Men Allowed Customary Indulgences

Dublin.—Rory O'Connor and his men who surrendered after the battle of the Four Courts are being treated as prisoners of war, being allowed the customary indulgences of books, tobacco, changes of clothing and the like. The Governor of the Prison, Sean O'Hegarty, is said to have informed them that this treatment is without prejudice to any status which may subsequently be accorded them when the fighting ceases.

Rescuer Is Drowned

Montreal.—In an attempt to save the life of Napoleon Gendreau, who was seized with cramps while swimming at Verdun, thirty-year-old Bertha Forkland was drowned when Gendreau held him around the neck and pulled him under water. Gendreau was saved by a man in a rowboat.

Depreciated Currency Law

Ottawa.—The depreciated currency law as it affects the imports of goods into Canada, will apply to goods from Germany, Austria, Hungary, Yugoslavia and Russia, according to instructions to collectors of customs which have been issued by the department here.

Irish Civil War

Leaders of Republican Forces Reported to be Seriously Wounded

London.—The Dublin correspondent of the Times says that Cathal Brugha was the last to leave the Granville Hotel, and while the rest of the guard advanced under a white flag he moved towards one of the national outposts, revolver in hand. A machine gun opened on him and wounded him in the leg. Brugha was then captured.

The correspondent also understands that the Irish labor party has invoked the help of the Catholic Archbishop of Dublin in an effort to end the loss of life and property, and an important conference may result.

The Daily Mail's correspondent quotes a Red Cross motor driver who arrived at Holyhead, Wales, from Dublin, as saying Rory O'Connor, Irish republican commandant, was dangerously wounded while defending the Four Courts building, where he was captured June 30.

It is also reported that Mrs. MacSwiney, widow of Terence MacSwiney, late Mayor of Cork, together with a sister of Kevin Barry, have been arrested.

Highway Across Mountains

British Columbia Will Build a Road to Alberta Boundary

Victoria.—British Columbia will build a highway to the inter-provincial boundary by the time Alberta reaches there, and the Government of this province is prepared to co-operate with the Alberta administration in completing the "missing link" so that Canada may have a through automobile route from coast to coast. Hon. W. H. Sutherland, Minister of Public Works, declared. He was addressing the pathfinders who journeyed to Victoria from Edmonton, and that is the message he asked the Albertans to carry home to their Government.

A scheme whereby the Dominion and Provincial Governments would join in a 60-40 basis is a scheme to build a half million dollar motor highway through the Rockies from Kamloops to Edmonton, was advanced.

"Too many people are looking forward to costly roads, broad and hard surfaced with good grades and that means tremendous costs," said Premier John Oliver. "I favor instead a policy of patching up the present trails and making the most of what we have rather than go without roads at all."

"I wonder if it would not be better to wait until we are absolutely positive of the best route and then make a really good highway," he said.

Wait Till After Elections

Winnipeg.—Nothing will be done by the Government of Manitoba in the way of participation in the inter-provincial conferences on wheat control until political conditions in this province have been stabilized by the general election on July 18.

Fire Destroys Toronto Block

Toronto.—Fire, which for a time threatened the densely built up business and factory block bounded by King, Wellington, York and Bay Streets, destroyed the old Royal Theatre building. The loss is estimated at \$200,000.

WESTERN EDITORS

Reg. M. Oliver, Publisher of The Herald, Minnola, Man.

New Road Ready

Estevan-Leithbridge Line Will Be Bridged at Once

Winnipeg.—"We hope to have the missing link in the Estevan-Leithbridge line closed up in plenty of time to haul wheat out of that section this fall by the new route," said D. C. Coleman, Western Vice-President of the C.P.R. A local passenger service, he added, would be installed there for the present. There are 27 miles over which no service is being given in the broken link. Eighteen of these have rail laid. Nineteen miles must be constructed to link up the long projected new line through Southern Alberta to Leithbridge connecting with the Crown's Nest Pass line.

Prince Receives Canadian Airmen

Used to Fly With Colonel Barker During War

London.—The Prince of Wales recently received Col. W. G. Barker, of Toronto, the noted Canadian aviator and his wife. His Royal Highness mentioned to Col. Barker that he had not flown since the colonel took him "rolling and diving" in war days. Col. Barker, formerly of the First C.M.R. from Brandon, won the V.C. and many other honors in the war and had a record second only to that of Col. Bishop, of Toronto, as an ace.

Investigate Asia Minor Affinities

London.—The French, Italian and United States Governments have accepted in principle the proposals of the British Government in regard to the inquiry into the alleged atrocities in Asia Minor, but certain modifications suggested are under consideration, said Cecil Harmsworth, under-secretary for foreign affairs, answering a questioner in the House of Commons in regard to the position of the proposal to send representatives of the great powers for such an inquiry.

Strike Sends Coal to Montreal

Montreal.—As a direct result of the labor troubles in the United States, coal is now coming into Montreal from the Cape Breton mines at the rate of 21 cargoes a month, carried by companies working under the British Empire Steel Corporation. Further cargoes are also coming in by chartered steamers.

Canadian Exporters Arrange To Resume Trade With Russia

New Stamp Tax

Effective August 1

Official Announcement Clears Up Misunderstanding Over Date

Ottawa.—Some confusion apparently has arisen with regard to the date when the new stamp tax on cheques will come into force. An official announcement intimates that the new rate of two cents stamp tax for every fifty dollars of the amount of money which the cheque is drawn up to but not exceeding \$5,000, will become effective on August 1 next, cheques drawn for any amount exceeding \$5,000 will be subject to the same tax as those drawn for \$5,000, namely two dollars.

Keep Dominion

Ministers Informed

Summary Service Originated In War—time is Still Maintained

London.—In the House of Commons Premier Lloyd George, replying to a question on the order paper, stated that the editor of the cabinet secretariat prepared weekly summaries of information for communication to members of the cabinet and prime ministers of the Dominions. These summaries were compiled from telegrams, despatches and reports which were furnished by a number of Government departments. They originated in wartime and had been continued after the prime ministers of the Dominions had been consulted and had expressed themselves as in favor of their retention.

May Float Domestic Loan

Finance Minister Says Fall Best Time to Raise Money

Ottawa.—It is decided to raise the money required by the Government to meet loans maturing on December 1 in Canada, the domestic loan will probably be floated in the early autumn. This was the statement of Hon. W. S. Fielding, Minister of Finance. He stated that the Government had not taken any steps in regard to the new loan but that the early autumn would be the best time to raise money through a domestic loan.

Guilty of High Treason

German Baron Convicted on Charge of Communication With French

Berlin.—Baron Leoprechting, has been found guilty of high treason and sentenced to life imprisonment in Munich on the charge that he had been in constant communication with French Minister Dard in Munich and was striving for the separation of South Germany from North Germany by French occupation troops. The proposed dividing line, according to the charge, was to follow the River Main.

Federal Ministers Will Represent Canada At Next Genoa Meeting

Ottawa.—Hon. W. S. Fielding, Minister of Finance; Hon. Ernest Lapointe, Minister of Marine and Fisheries; and Hon. P. C. Larkin, Canadian high commissioner in London, will represent Canada at the next assembly of the League of Nations which opens at Geneva, September 4. Announcement to this effect was made officially. While in Great Britain and France, the Minister of Finance will take up various departmental matters between those governments and the Government of Canada. It is understood. One of the matters which may engage his attention while in Paris will be that of resuming negotiations with the French Government for a more comprehensive trade treaty between Canada and France than now exists. The matter of a trade treaty between the two Governments was touched by the French consul-general at Montreal some weeks ago. At that time the Government intimated its willingness to enter into negotiations "at a convenient time," but since then no action has been taken.

Referring to this matter, which was raised in the Genoa conference the last session, Hon. Mr. Fielding said he anticipated that one of the days the French would take some

Reformatory To Be Built at Gleichen

Expect Work Will Be Commenced In Few Weeks

Edmonton.—An industrial school and reformatory for boys is to be established shortly by the Alberta Government. It will be located at Gleichen, where the new agricultural school building will be taken over temporarily for the purpose. It is as a farm school having been unnecessary for the present. Plans for the establishment of a boys reformatory have been under consideration by the Government for some time past and have been practically completed where definite action is expected as soon as the executive council can pass on it. The matter will likely be finally dealt with in the course of the next few weeks, arrangements having already been practically completed and steps will then at once be taken to get the new institution under way.

Treaty of Rapallo Ratified

Berlin.—The treaty of Rapallo, signed between Germany and Russia during the Genoa conference has been ratified by the Reichstag.

There was no debate over the question of ratification, with the exception of remarks by a communist deputy, who demanded that the treaty be amplified to include the other Soviet republics.

Lady Wilson May Become Candidate

London.—The Times states that Lady Wilson, widow of Field Marshal Henry Wilson, will be invited to stand as Unionist candidate for Parliament for North Down, her late husband's constituency.

Local and General Items

For funeral services phone 212, Crows' Nest Pass Undertaking Co.

Henry Zak is the owner of a new Chevrolet car.

W. T. Patterson was up from the ranch for a few days this week.

Miss Helen Gregor, of Rossland, is visiting her sister, Miss Elaine Gregor.

Pete Ubertino has added a coat of stucco to his new house on Dearborn Street.

The regular meeting of the town council was not held on Monday night last.

E. J. Pozzi has purchased a new Sudebaker car from the Crows' Nest Pass Motors.

The C. P. R. have posted No Trespassing notices on the paths used as a short-cut to the south side.

The time loss of miners in District 13 on strike for the months of April and May amounts to 195,988 working days.

The Fernie Golfers who visited town last week end were successful in defeating the locals by a score of five to seven.

The new store building and apartments next to the general offices of the coal company is progressing rapidly.

The town electrician is busy these days changing around the wiring system of the town and putting in some new poles.

Tony Pondelick has this week installed a radiophone. He will purchase a Magnovox later and place the set in the store.

Rebekah and Oddfellows are requested not to forget the annual picnic to be held at Lee Lake on Wednesday next. See posters.

Mrs. E. H. Joyce and children, Orland and Norma, left last Monday for Pincher Creek, where they will spend the next two months.

Mr. and Mrs. I. Comfort and Miss Grace Comfort, Mrs. Fraser, and Joe and Gus, Howe, left on Tuesday for a fishing trip at the North Fork.

Twenty years ago, Lord Milner, who had been high commissioner to South Africa for some time, was sworn in at Pretoria as governor of the Transvaal.

Mr. F. Lote, of Hillcrest, wishes it understood that the belief that he was convicted in the Christians-Lote case, is wrong as the case was dismissed without costs to either party.

The school board have decided to fence the school grounds and work will commence immediately. The fence will be of cement and reinforced with iron posts.

Ten prairie schooners passed through town on Wednesday en route to the coast. It is thought that they were settlers from different parts of the prairie.

It is expected that work will commence on the addition to the Union church parsonage in the course of a few days. A full-sized basement will be put in and two rooms added at the rear.

Mr. James Haddad, of Vancouver, former Pass merchant is spending the week here on business and in an interview with him he reported coast conditions as very encouraging. He stated that the small fruit crops this year have suffered from lack of rain but the other crops have time yet to turn out fine, providing rain comes soon.

The fishing is great there also, he says, and the biggest catch in the history of the coast is expected this season. He was also very well pleased to see conditions so well here at the present time.

Mrs. Owen Morgan is visiting friends in Lumbreck.

Mr. and Mrs. Bert Seneier are visiting relatives in Cowley.

J. B. Risk and Fred Thael, of Lethbridge, are in town this week.

Miss Julia Dutil is now home from Pincher Creek for the summer holidays.

Dr. Beaman, of Bellevue, is relieving Dr. Olivier of his duties here this week.

William Sherman was elected president of the U. M. W. of A., District 18, last week.

According to the latest report, Mayor McLeod is progressing as well as can be expected.

It is reported in town that Mrs. Young has had a serious operation performed in Edmonton.

Wm. McVey and a carload of anglers left Tuesday for a few days' fishing at the North Fork.

E. C. Cosstick, of Bellevue, has purchased a new Grey Dorr Special from Smallwood's garage.

Mrs. J. D. S. Barrett and Mrs. E. F. G. of Coleman were visitors in town on Thursday last.

Mr. and Mrs. Harry Gunn and children have gone to Lumbreck where they will spend a few weeks.

The Bellevue Rebekah Lodge held installation of officers last night. A full report will be published in our next issue.

There are 146 men and 5 women in the field as candidates in the forthcoming Manitoba election. They comprise ten groups.

The Blairmore Hardware store was broken into on Saturday night last, but only a little change and a few articles are reported missing.

Mr. and Mrs. W. Bird and Mr. and Mrs. Walter Scott are leaving for Spokane tomorrow by motor. They expect to be away for a week or ten days.

Mr. W. O. Evans, left for Rochester on Sunday evening last where he will again undergo surgical treatment for cancer, at the Mayo Brothers Clinic.

Mr. Jones, formerly of the Union bank staff here, is now at Bellevue relieving Mr. Harter, who is on his holidays. Mr. Jones will also relieve here in a few days.

It will be quite time enough to talk about the faults and failings of absent friends when we have secured ourselves that we have none of our own of which to speak.

Mr. Payne, proprietor of the Drumbeller Mail, accompanied by a party of citizens from that town passed through town this week en route to Elko for a few weeks' fishing. He paid the Enterprise a fraternal visit while here.

Smallwood's garage now announce that they have secured the agency for the Gray Dorr cars. These cars are all that can be desired in having the latest equipment, etc., and this year's model is one of the nicest cars on the market.

Government operation of the Grand Trunk Pacific, Canadian Northern and Intercolonial railway lines has resulted in considerable improvement in the general service for accommodation of passengers. The dining-cuisine is as good as can be found anywhere, while sleeping and other accommodations are of the best. A journey over any of their lines, which stretch from coast to coast, or on their G. N. Lakes steamships afford unlimited pleasure to the passenger.
